## CLIENT

Immobilien-gesellschaft von Bemberg mbH & Co. KG, Flammersheim

---

## Invitingly illuminated

The historic walls of Flammersheim Castle and park accommodate two restaurants of the premium-class gastronomy plus a function room in the former stable block.

The lighting concept was designed to provide a stylish and atmospheric welcome to the visitor while approaching the location. To achieve this, the landscaped park and the entrance area of the castle restaurants have been brightly and invitingly lit. The light colour can be chosen to match the event.

## Products

- LED-Powerspots, RGB
- LEDs High Brightness, RGB
- LED-Hayat, warm white

## EXTERIOR

Stable block illuminated with LED-Hayat

---

## Exterior illumination

The landscaped park with its historic walls, its indoor riding arena and its old stock of trees surrounding the castle was to extend a warm welcome to the visitor and to offer an atmospheric view of the complex.

The LED Power Spots in RGB light colour illuminate the stock of trees in the landscaped park and extend a warm welcome to the visitor upon arrival.

The historic walls are appealingly illuminated using warm white LED-Hayat WallWashers.

## INTERIOR

LED-Hayat in the bar area

### Interior spaces

LED-Hayat in warm white is used in the bar area of the Landlust restaurant to illuminate the brickwork creating a pleasant ambience and an impressive atmosphere.

The task for the function room in the former stable block was to design a lighting concept that could be individually modified to suit varying types of events. In particular, the ceiling is a focal point and needs to be highlighted by the chosen illumination.

This was resolved by attaching High Brightness LEDs, in RGB light colour, to 11 Lampshades in such a way that they are not visible to the guests.

### LED-Hayat

- 12 units, 180 cm each | 8 LEDs per unit, 3W each
- Lens type: 50°
- Light colour: warm white
- Protection class: IP65

### LEDs High Brightness

- 33 units on 11 lampshades | 1 W each
- Light colour: RGB
