BASE INFORMATION AND GENERAL TECHNICAL SPECIFICATIONS

LED-Drainlight | Drainage + Illumination

A forward looking solution, connecting aesthetic aspirations and practical requirements. For exterior applications: LED Drainlight combines stainless steel drainage channels with an impressive LED illumination of buildings...

So beautiful, so useful: This LED Drainlight model allows rainwater to be reliably drained away through stainless steel draining channels. Works whatever the weather - come rain or shine.

LED-Drainlight with LightLine AL

Luminous lines when darkness falls. Sometimes an eye-catcher. At other times showing the way. They accentuate entrance areas or emphasize architectural contours. Lightlines can be integrated in façades and floor spaces - they are always an optical highlight.

Features

→ For detached houses, villas, hotels, museums, parks, gardens, churches, castles, historic buildings

→ Illumination out of the drainage system out of the ground

→ Interactive integration into existing medial light systems

→ The light colours are dimmable and controllable using DMX

DIMENSIONS [WXH]

SLOTTED CHANNEL VA: 150 x 200 mm | Length variable

LIGHTLINE AL:

12 x 30 mm | Length variable

POWER CONSUMPTION

24 VDC | 19 W/m

LIGHT BEAM ANGLE

Diffus

SERVICE LIFE

50,000 hours at

70% of mean luminous flux

COLOUR TEMPERATURE

White | 3,000/4,000 Kelvin or multicolour RGB/RGBW

CRI > 85

CONTROL INTERFACE

INSTALLATION HOUSING

DMX512, 4 channels

IP RATING

IP68

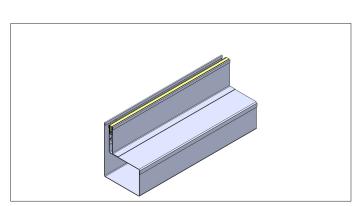

CERTIFICATES

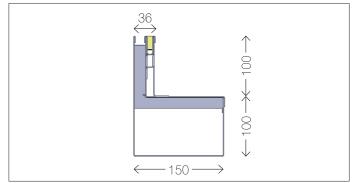

CE, RoHs

COVER

Stainless steel, aluminium

High quality PU seal, able to drive over up to 1.5 t wheel load

TTC Timmler Technology GmbH Christian-Schäfer-Straße 8 D-53881 Flamersheim [Cologne/Bonn]
